1889 - 1894

Box 30 NC-152 Entry 6

—MANN'S—
PARCHMENT COPYING PAPER.

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY,** than any other ever made for the purpose. The ink is **LESS LIABLE TO SPREAD,** and can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then with brush, wet the leaf. Rub in the surplus water with the hand: then place the written letter on the leaf, (leaving the blotting-paper under the leaf, to take up any excess of water that may yet remain,) place it in the press, and in 10 or 15 seconds a perfect copy will be secured.

☞The leaves WILL DRY AS SMOOTH AS SILK by placing the book in the Press after Copying.

☞Place the oil sheets between the copies just made, to prevent blending or setting off.

Another way when many letters are copied.

Procure a tin box with lid to hold 20 blotting pads.

Dip half the lot of blotters in water, let them drain off a few moments; then place a dry blotter between each wet one, give them a few minutes squeeze in Press and they will remain wet for three days; then take an oil sheet, place it to the left; then lay a wet blotter; then turn leaf of Copying over on blotter; then lay your letter on; then another oil sheet, and so on, and you can copy all your letters at one time, thereby saving time. With a little care and experience as to wetting at first, you will be so well pleased, as never to go back to old way.

BOXES FURNISHED IF DESIRED, AT SMALL COST.
